

Patient Health Questionnaire

IMPORTANT: Please send this completed form to the hospital where you will have your procedure/surgery.

The hospital needs to receive all three forms at least one week prior to your admission. We also need any recent specialist letters. You can hand deliver, photograph or scan (legibly) and email, or post the forms. If you post the forms, please allow for 1-2 extra weeks for delivery.

Please complete this questionnaire carefully as the information you supply helps us to provide you with the best and safest possible care during your stay at our hospital. The questionnaire has four sections:

- A Your general health
- **B** In preparation for your hospital admission
- **C** In preparation for your procedure
- **D** Your current medicines

Surname (family name):	
First name (s):	Hospital Administration only (Patient label)
To support your ongoing care, your discharge information will be sent to your nominated GP. If you do NOT want this, please tick	Surgeon NHI (if known) Your Occupation (optional)

All questions in this questionnaire are about the person being treated at the hospital (the patient). If you are filling this out for the patient, only provide information relating to the patient's health.

Section A Your General Health

A1.	A1. MEDICAL PROCEDURE HEALTH ALERTS							
Doa	ny of the	e follov	ving apply to you?					
Q	Yes	No		If Yes

Section D Your Current Medicines

For your safety, it is extremely important that your doctor and nurses know precisely which medicines you are currently using.

Important instructions.

- 1. List below <u>all</u> medicines you currently use, and bring them with you to the hospital in their <u>original containers</u>.
- 2. If you are taking any **blood thinning medication or supplements**, check with your surgeon if these need to be stopped prior to your admission .
- If you have a medication card or printout from your GP or pharmacist, please bring it with you to the hospital, as well as completing the list below.

MEDICINE REMINDERS Which of the examples below apply to you?									
There are main types of medic			es come in forms	Medicines are taken for many common conditions					
prescription medicines herbal medicines natural medicines homeopathic medicines over-the-counter medicines	vitamins supplements contraceptives steroids	tablets capsules inhalers drops syrups	patches suppositories creams injections other liquids	heart disease high blood pressure blood thinning dietary deficiencies emotional conditions	infections diabetes sleeplessness epilepsy
